Launch

Lead: CAL

4:00-7:00pm

Year 8-11 Parent's
Evening

Lead: Deep Support

NUMERACY NINJAS VMG TAKEOVER

- As we know, many of our students at Outwood Academy City have very low levels of numeracy. These students who are not confident and fluent in the numeracy foundations of Maths are ill-equipped to thrive when they learn the concepts of Maths and apply these skills across the curriculum.

Numeracy Ninjas can play an important role in preventing any gaps students have in their basic numeracy strategies from becoming barriers to their mathematical learning. Indeed, even higher attaining students have the gaps!

Numeracy Ninja
display idea!

How can you be the best Numeracy Ninja Teacher?

Take time to go through and explain the questions that students are consistently answering incorrectly

Ensure the VMG all clap when a student goes up a Ninja belt or beats their personal best (display Ninja record on the board)

Introduce the element of competition by opening other VMG's spreadsheets and comparing mean scores.

Join in with the students and do a numeracy ninja skills check each week!

Create a Numeracy Ninja display board in your VMG room to celebrate success
